

ELEMENT

we're ELEMENT.

*A creative studio crafting visualizations of unbuilt architecture
for architectural and real estate companies.*

*Each week we challenge new projects. We're looking for the right frame, we play with
the light, we create enviroment, we learn. It all brings us closer to the beautiful image.*

Check who trusts us!

The communication with ELEMENT was fast and clear both by emails and calls. We especially appreciated short daily Skype sessions with screen sharing, where we could see the progress. Jakub and Filip also brought valuable comments to the table and made the visuals looking better than we could imagine. I do not need to mention that the whole experience was very professional and everything was on time.

Larsen** —

*The night shot made for the Galileo Reference
Centre competition entree was a winner. For the
jury, it was clear, seeing this image, who the winner
should be. Not just because of the design but
understanding the universe and image of the client
as well.*

*We have experienced ELEMENT as being very
understanding with the dynamic of creative
projects, showing a high level of flexibility and
professionalism during the process.*

COPENHAGEN

*With a flexible and responsive attitude, ELEMENT
really shows their commitment with their clients
and their challenges.*

RAU

Communication with ELEMENT was clear and fluid what result in good work pace. We have always treated our cases with fluency, simplicity and speed. The subtle images of our proposition satisfied us a lot! We can highly recommend collaboration with Jakub and Filip.

—

ARAU ACUSTICA

It's always fun to work with ELEMENT. They quickly understand what we expect and try to fulfill our wishes. The images are created with great attention to details, that's why the results are really impressive. The ELEMENT team is professional and work very fast!

tr.architekten

We know ELEMENT for a long time and after few years I can say that we understand each other rather well. We are not afraid of giving them some freedom. In result we get back unique perspectives of our project. Working together is always a very pleasant experience!

we design visualizations.

Architecture is for us like sport. To win a competition or a tender you need reliable team where skills of individuals complements each other.

Direct conversation with the client and recognition of his needs always brings us closer to success. We ask questions. A lot! Even the most peculiar ones sometimes turn out to be important.

We carefully select the frame and set the lighting to illustrate the building in the most favorable way. It is clearly visible that good visualization become an effective marketing element of any project.
